

NOAH

THE BATHBOOK

—THE BATHBOOK—

RESEARCH AND INNOVATION

cuando empezamos, tuvimos que empezar desde el principio, desde cero. hemos aprendido de nuestras experiencias y queríamos vaciar nuestras mentes para dar rienda suelta a nuestra creatividad, sin limitaciones, solo enfocarnos completamente en nuestra pasión. así nació NOAH, en medio de tiempos de incertidumbre como el inicio de una pandemia, cuando el mundo entero se detuvo, nuestras mentes también tuvieron que parar. aprovechamos ese tiempo para renacer, para volver a nuestras raíces. raíces que a veces, de alguna manera, todos olvidamos, y no deberíamos, ya que ahí es donde permanece nuestra filosofía. una vez chocamos de nuevo con nuestras raíces y nuestra filosofía, las abrazamos. una progresión constante, no solo de estilo, porque para nosotros el diseño, por encima de todo, es una continua investigación y mejora en un viaje existencial. queríamos salir desde nuestras zonas de confort para diseñar algo nuevo y fresco. tomamos todo lo que queríamos, todo lo que podíamos pensar y lo sumamos. el siguiente paso fue eliminar con cuidado cualquier cosa innecesaria para que lo necesario pudiera hablar de una forma minimalista y práctica. el diseño de nuestras colecciones presenta una temática atemporal con un rastro distintivo de nuestro ADN, la extrema simplicidad combinada con el uso de materiales naturales hacen que nuestros productos encajen en cualquier proyecto y hogar, destacándose por sí mismos. este nuevo camino está creado para quienes valoran y apoyan la calidad, la artesanía y la atemporalidad.

when we started, we had to start from the beginning, from scratch. we have learned from our experiences and wanted to empty our minds to unleash our creativity, without limitations, just to fully focus on our passion. NOAH was born, in the midst of uncertain times such as the beginning of a pandemic, when the whole world stopped, our minds also had to stop. we take advantage of that time to be reborn, to return to our roots. roots that sometimes, in some way, we all forget and we should not, since that is where our philosophy remains. once, we collided again with our roots and our philosophy, we embraced them. a constant progression, not only of style, because for us design, above all else, is a continuous

investigation and improvement in an existential journey. we wanted to get out of our comfort zones to design something new and fresh. we took everything we wanted, everything we could think of and added it up. the next step was to carefully remove anything unnecessary so that what was necessary could speak in a minimalist and practical way. the design of our collections presents a timeless theme with a distinctive trace of our DNA, extreme simplicity combined with the use of natural materials that will make our products fit into any project and home, standing out on their own. this new path is created for those who value and support quality, craftsmanship and timelessness.

THE MISSION

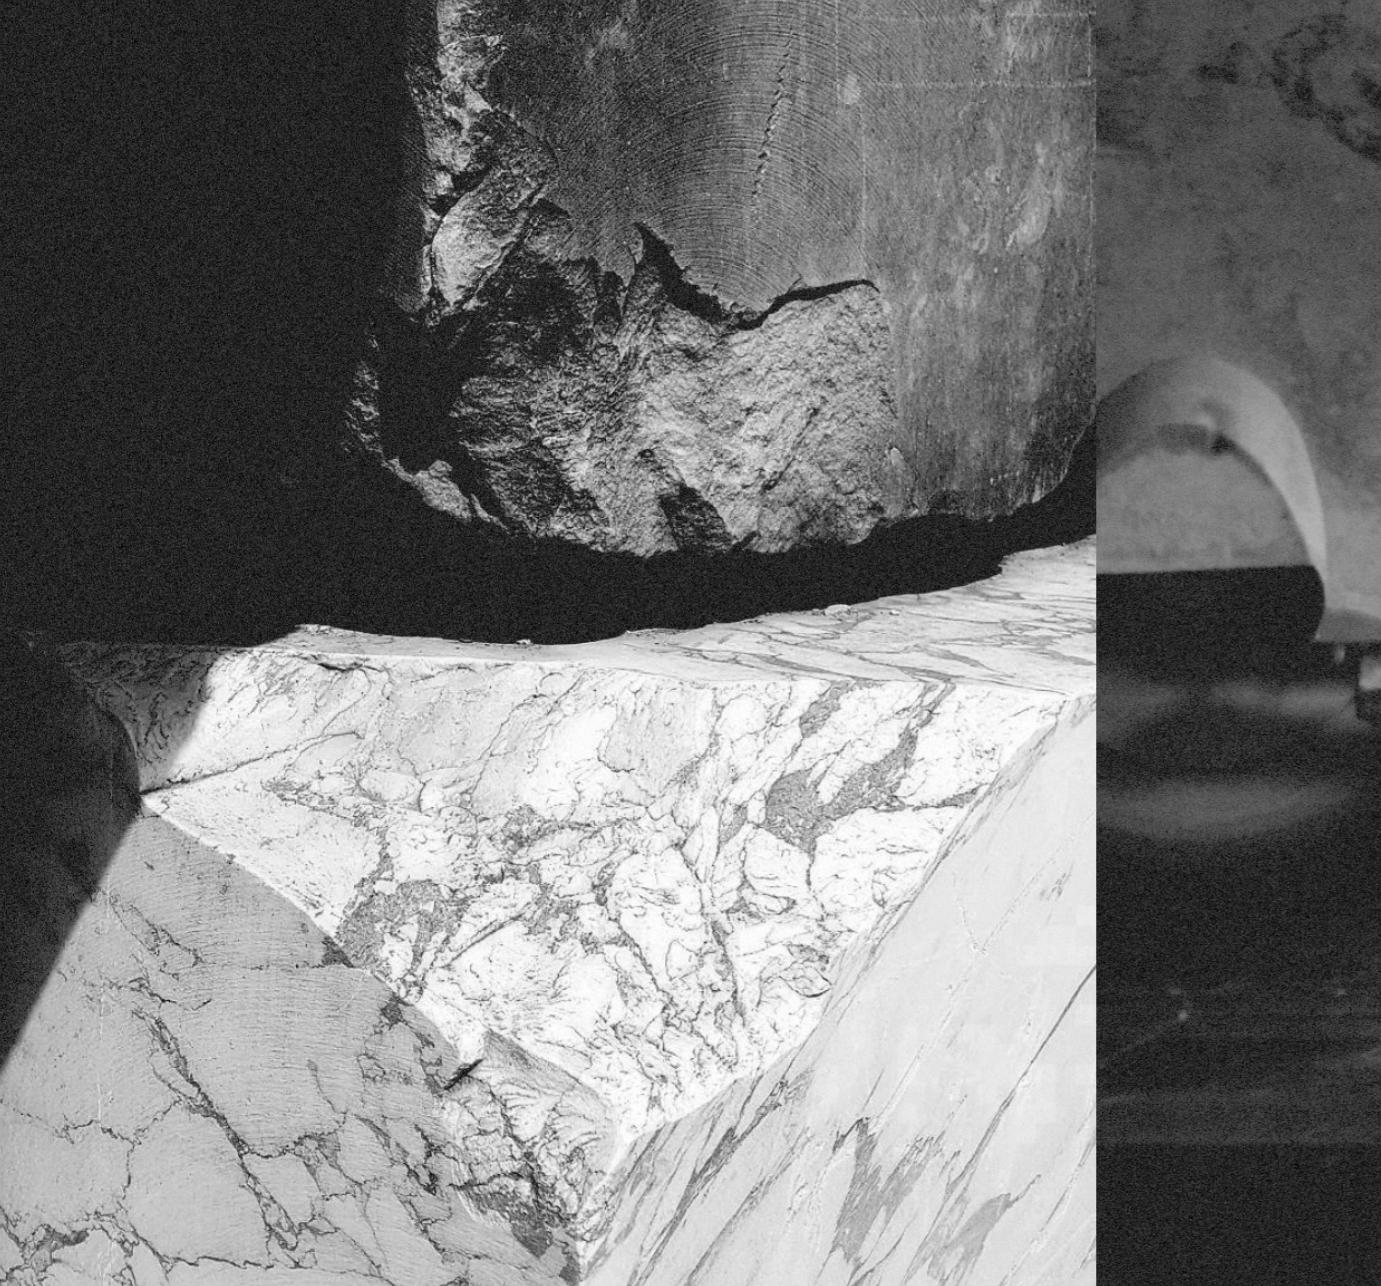

un nuevo concepto de espacio, el espacio como un lugar puro. un lugar donde se respira diseño y artesanía. donde los materiales naturales son el lenguaje principal, los protagonistas. formas puras que no todo el mundo comprende. el desorden libera el valor de la sencillez. materiales monocromáticos y nobles para construir objetos que duren toda la vida. por encima y en contra de las tendencias, la atemporalidad como forma de vida, la atemporalidad como razón de ser. nuestra missión, una progresión constante. contra el tiempo, para siempre.

a new concept of space, space as a pure place. a place where design and craftsmanship are exuded. natural materials are the main language, the protagonists. pure shapes that not everyone understand. disorder release the value of simplicity. monochromatic and noble materials to build objects to last a lifetime. over and against trends, timelessness as a way of life, timelessness as a reason to be. our mission, a constant progression. against time, forever.

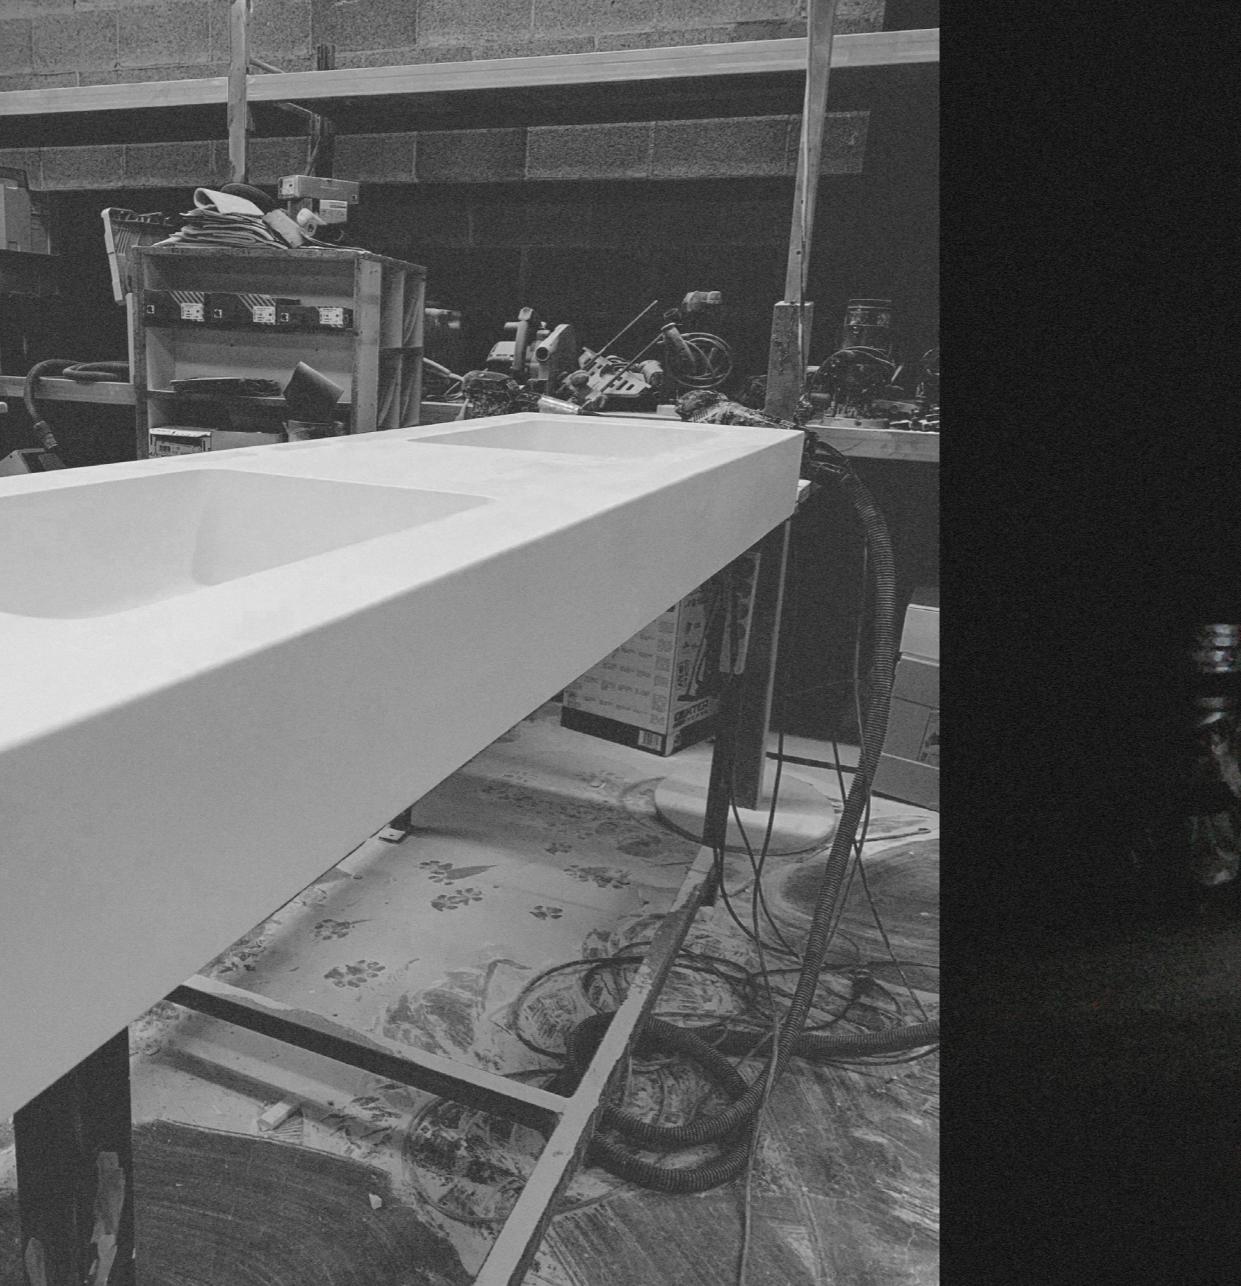

THE MATERIALS

NOAH nace a finales del siglo pasado como una de las primeras fábricas de solidsurface en España. desde hace más de 20 años fabricando solidsurface mayoritariamente para el sector b2b y gracias a una continua y esmerada investigación aplicada en el campo de las materias primas avanzadas, junto al constante e ininterrumpido afán de superación, presentamos un nuevo material de extraordinarias prestaciones, patentado bajo el nombre SOLIDSILK. ecológico, reparable, no poroso e ignífugo. SOLIDSILK se caracteriza por su textura aterciopelada única, agradable al tacto, fuerte como la piedra, hecha para satisfacer a clientes de todas partes, gracias a su fácil limpieza, higiene e increíble resistencia. los araños o marcas se pueden restaurar simplemente lijando ligeramente. fabricado 100% en España por NOAH, SOLIDSILK ya está disponible en su característico blanco nuclear y en su variante COLORSLIK, coloreado en masa, disponible en tres colores: arena, sage y cemento. y por si esto no fuera suficiente, la solución SOLIDSKIN presenta una solución como laca especial para nuestros productos SOLIDSKIN que brinda al cliente la oportunidad de tener nuestros productos en cualquier color de nuestra carta de colores o cartas ral/ncs. con una progresión constante como lema, simplemente no podíamos dejar de experimentar, explorar e investigar en materiales que cumplieran con nuestro enfoque artesanal y nuestros altos estándares de calidad. esta conciencia nos llevó a explorar nuevas formas de materiales para completar nuestra gama de productos. elige opciones nobles, como piedra, madera y vidrio. seleccionados con estricto cuidado, manualmente, uno a uno, garantizando un excelente rendimiento y cumpliendo con nuestra propia estética y estilo. materiales para garantizar la atemporalidad. La atención al detalle en su máxima expresión.

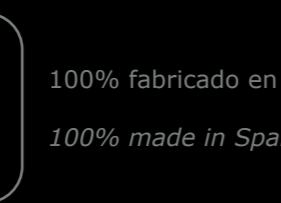

NOAH was born at the end of the last century as one of the first solidsurface factories in spain. for more than 20 years manufacturing solidsurface mainly for the b2b sector and thanks to continuous and careful applied research in the field of advanced raw materials, together with the constant and uninterrupted desire to improve, we present a new material with extraordinary benefits, patented under the name SOLIDSILK. ecological, repairable, non-porous and fire retardant. SOLIDSILK is characterized by its unique velvety texture, pleasant to the touch, strong as stone, made to satisfy customers everywhere, thanks to its easy cleaning, hygiene and incredible resistance. scratches or marks can be restored by simply sanding lightly. Manufactured 100% in spain by NOAH, SOLIDSILK is now available in its characteristic nuclear white and in its COLORSKIN variant, mass-coloured, available in three colours: sand, sage and cement. and if this is not enough, the SOLIDSKIN solution comes as a special lacquer for our SOLIDSKIN products that gives the customer the opportunity to have our products in any color from our color chart or ral/ncs charts. with constant progression as our motto, we simply couldn't stop experimenting, exploring and researching materials that met our craftsmanship approach and high quality standards. this awareness led us to explore new forms of materials to complete our range of products. choose noble options, such as stone, wood and glass. selected with strict care, manually, one by one, guaranteeing excellent performance and complying with our own aesthetics and style. materials to guarantee timelessness. attention to detail at its finest.

YOKAN

recreación, un restyling del diseño con el que empezamos hace 30 años, el equilibrio perfecto entre provocación y sencillez. un equilibrio entre la preciosidad de la madera noble, el método de lacado de nuestros expertos artesanos combinado con la yuxtaposición a 45º. yokan marca un punto de inflexión para nosotros, una misión, atención al detalle como un deber, una colección que podría presentarnos sin hablar, puro sentimiento, pura fuerza.

recreation, a restyling of that design with which we started 30 years ago, the perfect balance between provocation and simplicity. a balance between the preciousness of noble wood, the lacquering method of our expert craftsmen combined with the juxtaposition at 45º. yokan marks a turning point for us, a mission, attention to detail as a duty a collection that could present us without speaking, pure feeling, pure force.

H COLLECTION

La colección H Collection es una colección de baños que sigue la misma filosofía que la colección C. La estética esencial, mismo enfoque pero elevando la calidad en la elección de los materiales al olimpo. La piedra natural, que rinde homenaje a un material clásico, elaborado a partir de un solo bloque de piedra, suave al tacto pero impresionantemente robusto, su distintivo sistema de apertura push-pull proporciona líneas limpias y minimalistas mientras mantiene un aspecto de un solo material. Las bañeras y los lavabos exentos son una seducción secreta, sobrios pero sofisticados, rezuman lujo y atemporalidad. Una colección creada por entusiastas para entusiastas. Orgullosamente hecho a mano en España.

Essential aesthetics, same approach but raising the quality in the choice of materials to the olympus. Natural stone, paying homage to a classic material, crafted from a single block of stone, soft to the touch yet impressively robust, its distinctive push-pull opening system provides clean, minimalist lines while maintaining a single-material look. Freestanding bathtubs and sinks are a secret seduction, understated yet sophisticated, oozing luxury and timelessness. A collection created by enthusiasts for enthusiasts. Proudly handmade in Spain.
